
BUSINESS SEMINAR – PERFORMANCE VISUAL MANAGEMENT

It is our pleasure to invite you to Toruń (9 July 2013) for a business seminar on Performance Visual Management of the production. Main goal of the meeting is to present the role and the meaning of visual management in operational excellence.

During the seminar participants will have a chance to find out when and how the performance visual management should be used and how to appropriately connect this approach with the effective improvement action planning. The seminar is this kind of occasion that offers you a possibility to exchange years of experience and also gives you a chance to get to know new methods of approaching the effective production management.
